

**Press Release #358**

September 8, 2010

## **Fisnar Introduces New Dispensing Brochure**

Fisnar Inc. is pleased to announce its new 500 Series Dispensing Components brochure that not only includes a large selection of Fisnar dispensing accessories but launches a new series of Micron-S precision needle nozzles for positive displacement and automatic dispensing. These nozzles supply 60% greater efficiency in fluid flow and displacement performance.

Fisnar also introduces a new brand of bench dispensing aids. *PolySpense™* products include new ideas in dispensing bottles and disposable accessories that assist in the safe handling of volatile liquids. Other products featured in the brochure are new dipit™ touch pumps, flux pens and bottles.
